

Maastricht University

Wanted: participants for 'Project Leeswinst'

Goal: Improving early prediction of reading problems

For whom?

5-6-7 year-old children (groep 3)

What are we going to do?

You visit our EEG lab. You will wear a swimming cap with microphones. You will learn letters from our Leeswinst monsters' language and play short language games. You can participate together with a friend or alone.

How long will it take?

2 hours including breaks

Where?

Our EEG locations are in Maastricht, Amersfoort, Amsterdam and Rotterdam
Travel expenses will be reimbursed.

Reward?

A Leeswinst junior researcher diploma and a nice gift

Interested in participating? More information?
